Contract No. XG-1050 with National Electrical Machine Shops, Inc.

1. It is the opinion of this office that the list of Government owned tools submitted by the Contractor is a complete and accurate list of the tools used under the subject contract.

2. The specifications and drawings referred to in the subject contract have been returned by the Contractor and are filed in this office.

3. The above statement refers only to the tools used for the production of the RT-3 transmitter under Contract No. XG-1050 and does not apply to the total number of Government owned tools acquired under Contract Nos. PSC-135 and/or XG-540.
